October 16, 2012 is an important day. This is the last day that you can register to vote in the Presidential election on November 6th. If you haven't registered to vote, the library has voter registration forms. New Jersey state law requires that every public library make voter registration forms available to the public. The library also has a wide variety of information about the candidates and the issues.

Today it is more important than ever to consider carefully who will be the next President, and to understand the issues they are running upon. This year's election is asking fundamental questions about the economy and the role of government in the life of its citizens.

Be sure to read not only biographies of the candidates, but also to become familiar with the thinking of economists such as Adam Smith and John Maynard Keynes. Although Smith wrote *The Wealth of Nations*, more than 200 years ago, and John Maynard Keynes wrote *The General Theory of Employment, Interest and Money* in 1936, they are directly relevant to this year's election.

One of the Vice-Presidential candidates frequently speaks of his admiration for the writer Ayn Rand. She too is worth reading because of her outspoken views on freedom and the individual. For a contrast consider *The Federalist Papers*, which also explores government and the role of citizens, but comes to a much different conclusion.

Finally, I recommend reading anything by Peter Drucker. One of the essential issues of this election is our economy. Drucker, long before many others, foresaw that manufacturing would decline and "knowledge work" would increase. In my mind this election is very much about whether America will maintain an economy based on manufacturing, or an economy based on knowledge and ideas.

This fall, if you're feeling bewildered by pundits and campaign advertising, take some time to visit the library and consider the issues and the candidates. We're here to help you make your best choice.

Feel Better Every Day

With the holidays fast approaching, take some time for yourself and tune up your body, mind and spirit at the library!

On Tuesday, October 15 at 7 PM, Emotional Wellness Coach Sue Ann Schierloh offers a **Rethinking Happiness** workshop. Explore the topic of happiness — what it is, why it's important, and why it seems so hard

to achieve — through real life stories of people facing and overcoming adversity.

Author, counselor and life coach Diane Lang presents a workshop on **Living in the Moment** on Saturday, October 27 at 2 PM. If we could all live in the NOW we'd release a lot of our worry, anxiety and fear, and learn how to stop and smell the roses!

"Jollilogist" and Certified Laughter Yoga Leader Diana Perez offers a **Laughter Yoga** program on Wednesday, November 7 at 6:30 PM. Laughter Yoga is a fun form of exercise that helps strengthen the immune system, reduce stress and makes you feel good in the "here and now." Anyone can do it, and everyone can benefit from it!

Violet's Porch

“Autumn,
the year’s last,
loveliest
smile.”

—William Cullen Bryant

November

The stripped and shapely
Maple grieves
The loss of her
Departed leaves.

The ground is hard,
As hard as stone.
The year is old,
The birds are flown.

And yet the world,
Nevertheless,
Displays a certain
Loveliness —

The beauty of
The bone. Tall God
Must see our souls
This way, and nod.

Give thanks: we do,
Each in his place
Around the table
During grace.

October is *National Arts and Humanities Month*

The arts are fundamental to humanity, have the power to transform lives, connect people from all around the world, and are essential to a thriving community. Here's how you can celebrate:

- Visit a museum.
- Take up a musical instrument, or rekindle your interest in one.
- Take a class in painting, modern dance, or creative writing — whatever appeals to you.
- Read a poem out loud.
- Attend a local play, or outdoor concert.
- Read the arts section of the newspaper first.
- Take a family outing to the library.
- Enjoy the arts with your child: sing, dance, draw, play music, or read a book at home.
- Sing in a choir.
- Support the arts in education.

Classic Corner: *Tales of Edgar Allan Poe*

E.A. Poe

Although primarily a poet, Poe has achieved greater popularity for his tales of horror and mystery. Since his death in 1849, stories such as *The Tell-Tale Heart*, *The Gold Bug*, *The Pit and the Pendulum*, and *The Purloined Letter* have been included in many anthologies, and have made deep and

haunting impressions on the psyches of generations of readers.

Poe's own life was almost as horrifying as his fictional work. The little praise Poe received as a poet and writer in his own time was far outweighed by the criticism and misfortune he endured. Though it came too

late for Poe to appreciate, the lasting popularity of his work has delivered the final, and affirmative, verdict on his literary talent.

Kid's Corner

It's never too late to register for story time at the library. The fall programs run from September 9 through November 29. Check the library's web site for dates and times.

For those who can't come to the library during the day, a Pajama Story Time will be held on Thursday nights at 6 PM, through November.

If you're looking for something to do with your child on a Tuesday between 11:30 AM and 12:30 PM, visit the library's Drop In Craft sessions and get creative!

Magic, Myth & Monsters, an exciting (but not scary!) Halloween Magic Show, takes place on Thursday, October 25 at 6 PM.

The library's annual Pre-K Halloween Parade with Guitar Bob takes place on Wednesday, October 31 at 10:30 AM.

Visit the library web site at www.jeffersonlibrary.net for more information, or to register.

Learn marketable computer skills at the library's free computer classes this fall!

Build Computer Confidence

Are you in need of computer confidence? The library is offering five *Computer Confidence* classes this fall, on Friday mornings from 9:30 to 11:00 AM on October 12, October 19, October 26, November 2 and November 9.

We may begin by exploring such topics as using a mouse, finding things on the Internet, and creating e-mail addresses, but program content will be driven by the interests and needs of the participants.

This is your class if you know nothing about computers, if you are looking for practice, or if you want to learn more about computers.

Each session will begin with a topic related to beginner level computing, and will conclude with an activity designed to build your computing confidence.

Please register for one or more program by visiting the library's web site at www.jeffersonlibrary.net, or by calling the library at 973-208-6245.

Learn the Basics of Excel

Do you need to know how to use Microsoft Excel? Do you need an Excel refresher? Are you mystified by Excel? If so, consider attending the library's Basics of Excel program. Classes will be held on October 1, October 15, October 22, October 29, November 5 and November 19, from 7:30 PM to approximately 8:45 PM.

While the program will include topics such as navigating Excel, formulas, and charts, the program content will focus on the interests and needs of the participants.

Each program will begin with an introduction to a basic function of Excel, and continue with an activity related to that function.

Please register by visiting the library's web site at www.jeffersonlibrary.net, or by calling the library at 973-208-6245.
